

Special Needs Assessments

User Qualifications Guide

Examiner qualifications for **Riverside Insights™** Special Needs Assessments have been informed by the *Joint Standards for Educational and Psychological Testing* (American Educational Research Association (AERA), American Psychological Association (APA), & National Council on Measurement in Education (NCME). (2014). *Standards for educational and psychological testing*. Washington, DC: AERA). The table below includes three applicable standards for this publication.

Standard	Criterion
11.3	<i>Responsibility for test use should be assumed by or delegated only to those individuals who have the training, professional credentials, and experience necessary to handle this responsibility. Any special qualifications for test administration or interpretation specified in the test manual should be met. (p. 114)</i>
13.10	<i>Those responsible for educational testing programs should ensure that the individuals who administer and score the test(s) are proficient in the appropriate test administration procedures and scoring procedures and that they understand the importance of adhering to the directions provided by the test developer. (p. 147)</i>
13.13	<i>Those responsible for educational testing programs should ensure that the individuals who interpret the test results to make decisions within the school context are qualified to do so or are assisted by and consult with persons who are so qualified. (p. 148)</i>
